ANSC 5694: ANIMAL SCIENCE SEMINAR SERIES
SPRING 2019
Fridays at 12:20 PM - George White Building, Room 209

JAN 25
Dr. Young Tang
Department of Animal Science, UConn
Investigating Animal Somatic Cell Reprogramming and Tackling PRRSV Infection of Pigs with Small Molecules

FEB 1
Dr. Breno Fragomeni
Department of Animal Science, UConn
Genomic Evaluation and Genome-Wide Association of Heat Stress Robustness in Pigs

FEB 8
Dr. Abhinav Upadhyay
Department of Animal Science, UConn
Improving Food Safety from Farm to Fork: Application of Novel Compounds and Efficient Carrier Systems

FEB 15
Brent Lewchik
Chemical Safety Manager, EH&S, UConn
Lab Safety and Chemical Waste Management Retraining

FEB 22
Dr. David Goldhamer
Cell and Development Biology Program Head, MCB, UConn
Stem Cells in Musculoskeletal Development, Regeneration and Disease

MARCH 1
Dr. Elaine C. Lee
Department of Kinesiology, UConn
Increasing Stress Resiliency and Longevity Through Regulation of Progteostasis in C. elegans

MARCH 8
Dr. Antonio Garmendia
Department of Pathobiology and Veterinary Science, UConn
Vaccines for Variable Pathogens

MARCH 15
Dr. Peter McGuire
Metabolism, Infection and Immunity Section Head, Medical Genomics and Metabolic Genetics Branch, NIH
TBD
Note Different Time and Location: 11:15am-12:15pm. Location: Young 100

MARCH 22
No Classes - Spring Break

MARCH 29
Deepa Kuttappan, Ph.D. student
Department of Animal Science, UConn
Ph.D. Proposal Defense: Characterizing the Anti-inflammatory Potential of Starter Cultures and Cheese in the Management of IBD

APRIL 5
Brandon Smith, Ph.D. student
Department of Animal Science, UConn
The Effects of Maternal Nutritional Restriction Followed by Realimentation on Offspring Growth and Metabolism

APRIL 12
Poonam Vinayamohan, Ph.D. student
Department of Animal Science, UConn
Ph.D. Proposal Defense: Inhibiting Horizontal Transfer of Antibiotic Resistance Gene between Salmonella and Commensal E. coli by Phytochemicals and Lactic Acid Bacteria

APRIL 19
Dr. Theodore Rasmussen
Pharmaceutical Sciences, School of Pharmacy, UConn
Stem Cell and Epigenetic Approaches in Birth Defects Research and Developmental Hepatology

APRIL 26
Elizabeth Johnson, M.S. student
Department of Animal Science, UConn
Intramuscular Injection of Plant Derived Antimicrobials and Caprylic Acid on M. bovis

MAY 3
Sulaiman Aljasir, Ph.D. student
Department of Animal Science, UConn
Antimicrobial Efficacy of Individual or Combined Protective Cultures Against Pathogens of Concern in Raw Milk

For more information, contact Dr. Young Tang at 860-486-6619 or Yong.Tang@UConn.edu. Visit our website for seminar updates at www.animalscience.uconn.edu
