Spring 2019
Department of Animal Science &
Department of Nutritional Sciences

Dr. Peter McGuire, M.D.
Head of Metabolism, Infection and Immunity
Section,
National Institutes of Health

Friday, March 15, 2019
11:15 AM – 12:10 PM

Wilfred B. Young Building
Room 100
UConn Storrs Campus

For more information:
Dr. Sarah Reed
Sarah.Reed@UConn.edu

**Special Seminar**

**Immune Modulation of Hepatic Metabolism During Non-hepatic Infections**

Dr. McGuire is an internationally known scientist in the area of immunometabolism.

He is currently the head of the Metabolism, Infection and Immunity Section of the Medical Genomics and Metabolic Genetics Branch of the National Human Genome Research Institute at NIH.

Dr. McGuire uses animal and disease models to understand the interplay between mitochondrial metabolism and the immune system.
