

**ANSC 5694: ANIMAL SCIENCE SEMINAR SERIES
FALL 2018**

**George White Building, Room 209
Fridays at 12:20 PM**

- Aug 31** Karen More
IACUC Program Manager, UConn
IACUC Re-Training
- SEPT 7** Robotics Open House
- SEPT 14** David Cavallaro
Biological Health and Safety Manager, EH&S, UConn
Blood-borne Pathogen Re-Training
- SEPT 21** David Cavallaro
Biological Health and Safety Manager, EH&S, UConn
Shipping Awareness
- SEPT 28** No Seminar
- OCT 5** Valerie Brangan
Occupational Safety Manager, EH&S, UConn
Hazard Communications: Right to Understand Training
- OCT 12** Dr. El Hamidi Hay
Geneticist, Range and Livestock Research, USDA ARS
"Genotype by Nutritional Environment Interaction in Beef Cattle"
- OCT 19** Dr. Genevieve Flock
Research Microbiologist, US Army Natick Soldier Research, Development and Engineering Center
"Survival of *Salmonella Enterica* in Low Moisture Military Ration Products"
- OCT 26** Robotics Conference
- NOV 2** Amanda Liefeld, M.S. student
Department of Animal Science, UConn
"The Effect of Restricted Maternal Nutrition and Realimentation on Offspring Muscle Development"
- NOV 9** Catherine Gensler, M.S. student
Department of Animal Science, UConn
"Use of Protective Cultures to Control Pathogens in Raw Milk for Cheese Making"
- NOV 16** Chang Huang, Ph.D. student
Department of Animal Science, UConn
"Targeting Specific Signaling Pathways to Suppress PRRSV Infection"
- NOV 23** No Classes - Thanksgiving Break
- Nov 30** Lang Sun, M.S. student
Department of Animal Science, UConn
"Characterizing the Microbial Ecosystems of Traditional Farmstead Cheese Production and Their Roles in Microbial Transfer and Population Succession"
- DEC 7** Deepa Kuttappan, Ph.D. student
Department of Animal Science, UConn
"Protective Role for Cheese in the Management of IBD"
